White Male Heart Oct 13 2019 An extraordinarily powerful and critically acclaimed debut - Val McDermid called it 'brutal and beautiful' - to compare to such classics as Lord of the Flies by William Golding and Iain Banks' The Wasp Factory. In the magnificent wilderness that is the Scottish Highlands, Aaron and Hugh have been friends for as long as they can remember, bound by a shared affinity for their surroundings and an increasing sense of alienation from the remote, close-knit community that is their home. But when a young woman - fleeing life in the city and a broken love affair - moves to the area, the ties that bind the boys are slowly, irrevocably stretched to near-breaking point. And as the strain on Aaron and Hugh's friendship builds, so the violence that is endemic in the land begins to infect them both. Driven to the very edge of reason, they turn on their world to vent their frustration and anger and hurt in the only way they know, embarking on a spree of quite horrific destruction...

Subverting Consumerism Jun 01 2021 There is now a widespread interest in reuse in many domains, from opera houses built over old warehouses, to vintage clothes and everyday goods incorporating repurposed materials or parts. Despite its ubiquity, this extensive creative work is typically seen in narrowly environmental terms, as a means of reducing carbon, resource use or waste. However, as this volume shows, reuse also has aesthetic and cultural dimensions and a rich social currency, invoked to consciously subvert the accelerated consumer culture responsible for our unfolding environmental crisis. In three parts, the essays in this book consider reuse in terms of values, aesthetics and meaning, its application in contemporary urban and spatial settings, and the revival of social practices involving a more conscious recourse to reuse and repair. These are bookended by the editors' essays: the first, on the significant relationship between reuse and technological and social acceleration evident in the surrounding consumer society; and the last, on the multiple forms of reuse deployed in a contemporary alternative building practice, and their contributions to presenting alternative ways of living in the world. Challenging dominant understandings of 'waste' and 'consumption', *Subverting Consumerism* shows how reuse has become a means for many to creatively engage with the past, and to discover a continuity and sense of place eroded by the accelerative regimes of contemporary consumerism. Becoming a means of resistance, and offering a range of aesthetic, social and economic possibilities, reuse can be found to subvert and challenge the obsessive quest for the new found in contemporary consumerism.
