A Simple Christmas on the Farm Mar 10 2022 When a little girl finds out her family is planning a "simple" Christmas this year, she's not so sure about it. But soon she gets into the spirit of simplicity and generosity by making presents and Christmas decorations with her parents and grandparents on their family farm. She and her mama share Christmas cookies with friends they meet, inviting everyone to join them for Christmas in their little red barn. Warm and heartfelt, this story invites children and families to imagine an inclusive Christmas, focusing on the simple pleasures of connection, community, and the care and generosity shared by making things by hand. Step-by-step directions for creating three handmade Christmas gifts are included at the end of the book. *A Simple Christmas on the Farm* is an inspired companion to author Phyllis Alsdurf's bestselling *Thanksgiving in the Woods*, a picture book based on the real-life story of a family that celebrates Christmas in the woods in Upstate New York.

Kaffe Fassett's Kaleidoscope of Quilts Jan 08 2022 In Kaffe Fassett's *Kaleidoscope of Quilts*, you'll discover 20 individual designs that feature both the new fabrics in Rowan's patchwork range and some firm favorites. Photographed against the glittering backdrop of the Mediterranean island of Malta, these quilts echo the bright sunshine colors in a glorious array of new designs from both Kaffe and his team, Liza Prior-Lucy and Pauline Smith. With each quilt, you'll find illustrated step-by-step instructions with colored diagrams, a 'flat shot' photo, and the quilt template.

Open Issues in Local Star Formation Oct 05 2021 The international colloquium Open Issues in Local Star Formation and Early Stellar Evolution was focused on: the physics of young stellar objects, which are observed with increasing angular resolution by the new generation of telescopes; and the processes that triggered large scale star formation in the solar neighbourhood. The scientific presentations were not limited to these two main topics as many new and interesting results related to star formation have been obtained.; The participants presented new findings in the fields of stellar groups and associations; young stellar objects; disks; outflows and jets; the ISM conditions for star formation; and early stages of star formation. The discussions on open issues, representing problems and unanswered questions, should make this book particularly useful for researchers and PhD students.

Kaffe Fassett Quilts Shots and Stripes Jul 02 2021 In Kaffe Fassett Quilts Shots and Stripes, quilt master Kaffe Fassett and coauthor Liza Prior Lucy present 24 projects--small and large, beginner and advanced--made with iridescent solid-colored cotton fabrics (called shot cottons) and woven striped cotton fabrics, all photographed in and around his weekend home on England's southern coast. Inspired by worldwide travels and a plethora of ethnic textiles, including Amish quilts in America, Japanese indigo patched work clothes, and African weavings, the projects featured include full-size bed quilts as well as smaller pieces that can be completed more quickly, such as throws, wall hangings, table runners, and pillows. With Shots and Stripes, Fassett answers the current call for quilts that make bold graphic statements but are not necessarily as time-consuming as some of the work for which he has been previously celebrated.

Transactions on Large-Scale Data- and Knowledge-Centered Systems XVII Apr 30 2021 The LNCS journal *Transactions on Large-Scale Data- and Knowledge-Centered Systems* focuses on data management, knowledge discovery and knowledge processing, which are core and hot topics in computer science. Since the 1990s, the Internet has become the main driving force behind application development in all domains. An increase in the demand for resource sharing across different sites connected through networks has led to an evolution of data- and knowledge-management systems from centralized systems to decentralized systems enabling large-scale distributed applications providing high scalability. Current decentralized systems still focus on data and knowledge as their main resource. Feasibility of these systems relies basically on P2P (peer-to-peer) techniques and the support of agent systems with scaling and decentralized control. Synergy between grids, P2P systems and agent technologies is the key to data- and knowledge-centered systems in large-scale environments. This, the 17th issue of *Transactions on Large-Scale Data- and Knowledge-Centered Systems*, contains extended and revised versions of five papers, selected from the 24 full and 8 short papers presented at the 15th International Conference on Data Warehousing and Knowledge Discovery, DaWaK 2013, held in Prague, The Czech Republic, in August 2013. Of the five papers, two cover data warehousing aspects related to query processing optimization in advanced platforms,

specifically Map Reduce and parallel databases, and three cover knowledge discovery, specifically the causal network inference problem, dimensionality reduction, and the quality-of-pattern-mining task.

English Paper Piecing Workshop Aug 23 2020 Do you love bright, geometric quilt designs but wonder how to get such sharp points and accurate piecing?

English paper piecing is the answer and this collection shows you how to sew your own patchwork projects even if you've never made a quilt before. English paper piecing (EPP) is a traditional patchwork technique which uses hexagon-shaped paper templates which are pieced together by hand sewing rather than machine piecing. This process of hand piecing is both mindful and calming and the fact that it doesn't rely on a sewing machine makes EPP the perfect 'sofa sewing' project that can be done while relaxing in front of your favourite TV show or while socialising with friends. Jenny Jackson is an expert in EPP and has been demonstrating the technique and showcasing her patterns on TV craft channels and magazines for a number of years. She has created this collection of techniques and patterns for modern EPP projects for the home including some really striking, large quilts. Jenny holds your hand through the EPP process so, even if you've never tried it before, you can complete projects to be proud of. Even if you already have some experience with EPP, Jenny shares her tips and tricks for quicker and sharper results so you can improve your skills. There are 18 projects for the home in a variety of sizes so you can build up to a full-sized quilt but you can also dip in and out of some smaller projects such as coasters, wall hangings and cushions while you hone your skills. The projects include repeats of EPP patterns and blocks as well as how to use EPP blocks and rosettes as appliqué within quilts and other projects. It's not just about the hexagon either: Jenny's geometric designs feature 20 different paper pieced templates including diamonds, octagons and even curved shapes for really exciting results. These sheets can be photocopied to give you multiple templates, fast. You can even flex your own creative muscle with the colouring pages included for every project so you can experiment with your own colour combinations to make your own unique designs.
