Thinkers of the Twentieth Century Jul 22 2020 Major thinkers in various intellectual disciplines are featured in Thinkers of the Twentieth Century. Your patrons will find this guide a perfect start to their studies on 450 intellectuals from philosophy, theology, literary criticism, aesthetics, history, social sciences, politics and the sciences. Entries are divided into two parts. "Part One" includes: a biography, complete bibliography and reading list of the major books and articles written about the entrant. "Part Two" consists of an extended 1,000 to 3,000 word essay on the entrant. These essays explain in clear, comprehensible language the work of the entrant and his/her influence on the intellectual of the 20th century.

National Socialism; Basic Principles, Their Application by the Nazi Party's Foreign Organization, and Use of Germans Abroad for Nazi Aims Oct 25 2020

A Sociological Theory of Value Feb 21 2023 In this book, Natàlia Cantó Milà elaborates on Georg Simmel's relational approach to a theory of value, pointing at the heuristic possibilities that this approach offers to modern sociology and to a sociology of modernity. She does so by focusing on the theory of value Simmel developed in his »The Philosophy of Money«, delivering an alternative reading of this book that views its theory of value as its main axial point. Simmel's theory of value is depicted by Cantó Milà as including an intrinsically sociological aspect, since economic as well as moral, ethic and aesthetic values are conceived as resulting from human relations.

Friedrich Meinecke Feb 15 2020 Die "Historische Kommission zu Berlin" betreibt die Erforschung der Landesgeschichte und der Historischen Landeskunde Berlin-Brandenburgs bzw. Brandenburg-Preußens in Form von wissenschaftlichen Untersuchungen, Vorträgen, Tagungen und Veröffentlichungen sowie durch Serviceleistungen. Dabei kooperiert die Kommission auch mit anderen Institutionen und begleitet wissenschaftliche und praktische Vorhaben von allgemeinem öffentlichen Interesse. In der Schriftenreihe werden die Ergebnisse der einzelnen wissenschaftlichen Projekte der Kommission veröffentlicht.

Nacht over Europa Sep 23 2020 Met de Eerste Wereldoorlog brak het tijdperk van de grote slachtpartijen aan. Het Europese kosmopolitisme stierf een roemloze dood op de slagvelden. Niets en niemand werd ontzien, en de burgers van de oorlogvoerende landen werden soldaten, onder wie ook kunstenaars, wetenschappers en intellectuelen. Ernst Piper beschrijft de geestelijke mobilisatie van de naties, de ontwikkeling van de totale oorlog, het uiteenvallen van de arbeidersbeweging, de ellende van de joodse minderheden en de rampzalige nawerking van de oorlog na 1918. Hij toont hoe de oorlog werd weerspiegeld in de publieke opinie, de literatuur en de beeldende kunst. Hij ziet de politici, de intellectuelen en de kunstenaars als de seismografen van de ingrijpende gebeurtenissen die de wereld schokten.

Logischer Empirismus, Lebensreform und Die Deutsche Jugendbewegung Nov 13 2019 This open-access book is the first to investigate the roots of Logical Empiricism in the context of the Life Reform and the German Youth Movements. Rudolf Carnap and Hans Reichenbach are the key protagonists; they both belonged to the German Youth Movement and developed their early philosophical views in this setting. By combining scholarly essays with unpublished and hard to access manuscripts, letters, and articles, this volume recasts our understanding of the early years of Logical Empiricism.

The Discourse Strategies of Imperialist Writing Dec 15 2019 In this monograph, Felicity Rash examines German colonialist texts through the lens of linguistics, using multiple analytic approaches in order to contribute to the study of ideological discourse. Focusing on texts from Germany's colonial period during the Second Reich, the book describes the discourse strategies employed in a wide variety of colonialist discourses, from propagandistic and journalistic writing to autobiographical and fictional accounts of life in Germany's African colonies. The methodologies Rash employs include the Discourse Historical Approach and Cognitive Metaphor Theory, and the book aims to develop a new model for the analysis of expansionist nationalist writing. Little detailed analysis exists of the types of texts taken as primary sources, and Rash provides English translations of German quotations, in addition to drawing upon her research in former German colonies in Africa. Rash's research will be of interest to linguists, historians, Germanists, and social and political scientists, and lays the groundwork for future interdisciplinary analyses of German colonialism.

The Social Theory of Georg Simmel Nov 18 2022 Contemporary sociology increasingly seems to be adopting a perspective similar to that on which Georg Simmel's analysis and interpretations rested. To a significant degree, therefore, sociologists continue to turn to Simmel for a basic understanding of the forms and processes of social life. Nicholas Spykman's *The Social Theory of Georg Simmel*, originally published in 1925, was the first comprehensive

account of Simmel's ideas. It remains a most valuable summary of the major elements of his thought. Spykman wrote this study for a specific purpose: to indicate Simmel's conception of the relations between different fields of theoretic inquiry into socio-historical actuality; to make Simmel's contributions to the methodology of the social sciences understood; and to illustrate Simmel's conception of sociology as a science. He shows that Simmel was primarily a social philosopher interested in a functional understanding of socio-historical realities, art and economic values, morals and aesthetics, religion, and the function of money. Spykman identifies three major phases in the development of Simmel's thought: the first is primarily occupied with methodology and the presuppositions of the social sciences; during the second he wrote several essays containing philosophic interpretations of modern civilization; and the third culminated in his metaphysics of culture. *The Social Theory of Georg Simmel*, graced with a new introduction by David Frisby, one of the foremost contemporary Simmel experts, is an outstandingly organized, coherent presentation of the complex and subtle ideas of one of the intellectual giants of modern sociology.

The German Army League Aug 15 2022 This book traces the development of the German Army League from its inception through the earliest days of the Weimar Republic. Founded in January 1912, the League promoted the intensification of German militarism and the cultivation of German nationalism. As the last and second largest of the patriotic societies to emerge after 1890, the League led the campaign for army expansion in 1912 and 1913, and against the growing influence of socialism and pacifism within Germany. Attempting to harness popular and nationalist sentiment against the government's foreign and domestic policies by preying on Germans' fears of defeat and socialism, the League contributed to the polarization of German society and aggravated the international tensions which culminated in the Great War. Coetzee combines an analysis of the League's principal personalities and policies with an exploration of the inner workings of local and regional branches, arguing that rather than having served solely as a barometer of populist nationalist sentiment, the League also reflected the machinations of men of education and prominence who believed that an unresponsive German government had stifled their own careers, dealt ineffectually with the prospect of domestic unrest, and squandered the nation's military superiority over its European rivals.

An Economic History of the First German Unification Feb 09 2022 There is a striking chronological parallel between Germany's transition from a post-Malthusian regime to modern economic growth and the formation of a modern nation-state between the late 1860s and the early 1880s, which culminated in the events of 1871. The central question of this book is whether and how such state formation did in fact contribute to economic development. Twenty chapters written by leading experts in their respective fields deal with various aspects of the book's main question. Together, they identify three channels by which national unification contributed to Germany's economic development: (1) Creation of a nation-state completed a process of institutional Unification of a large inland area and thereby increased the integration of domestic markets. (2) Unification raised the capacity of the political system with respect to regulating complex domains, such as stock companies, patenting, and social insurance. (3) The emerging political regime of market-preserving federalism promoted the quality of economic institutions. Moreover, a set of chapters dealing with the experience of other European economies apart from Germany during the second half of the nineteenth century highlight additional factors in nineteenth-century economic development, most notably the first wave of modern globalization and economic geography. Readers interested in the history of state building and the economic history of Germany and of Europe in general during the age of industrialization and globalization and students of the economic effects of political integration and decentralized state growth will all gain much from this book.

Die Großmächte und die Weltkrise Jan 08 2022 Dieser Buchtitel ist Teil des Digitalisierungsprojekts Springer Book Archives mit Publikationen, die seit den Anfängen des Verlags von 1842 erschienen sind. Der Verlag stellt mit diesem Archiv Quellen für die historische wie auch die disziplingeschichtliche Forschung zur Verfügung, die jeweils im historischen Kontext betrachtet werden müssen. Dieser Titel erschien in der Zeit vor 1945 und wird daher in seiner zeittypischen politisch-ideologischen Ausrichtung vom Verlag nicht beworben.

Imperial Finance Reform and the Politics of German Agrarian Conservatism, 1906-1909 Nov 25 2020

A London Bibliography of the Social Sciences Aug 03 2021

The Ideological Origins of Nazi Imperialism Jun 13 2022 This study traces the evolution of imperialist ideology in Germany from Bismarck in the mid-19th century through Hitler and the Third Reich. Although much has been written about the virulently racist and anti-communist ideologies of the Nazi party, this is the first book to treat Nazi imperialism as a separate ideology and set it within a sturdy theoretical framework. Smith contends that Nazi imperialism represented the last, ambitious attempt to integrate two century-old ideologies--the elite, pro-industrial Weltpolitik and the popular-based, pro-agrarian Lebensraum--into a single system. In fact, Smith argues that it was largely the way in which the Nazis attempted to reconcile these contradictory ideologies that explains Germany's disastrous policies during World War II. This wide-ranging study also contributes to the debates over several other aspects of German history, including German military aims in World War II, the continuity--or discontinuity--of German policy from Bismarck to Hitler, and the relation between ideology and social-political life.

Anticipating Total War Jun 20 2020 The essays in *Anticipating Total War* explore the discourse on war in Germany and the United States between 1871 and 1914. The concept of "total war" provides the analytical focus. The essays reveal vigorous discussions of warfare in several forums among soldiers, statesmen, women's groups, and educators on both sides of the Atlantic. Predictions of long, cataclysmic wars were not uncommon in these discussions, while the involvement of German and American soldiers in colonial warfare suggested that future combat would not spare civilians. Despite these "anticipations of total war," virtually no one realized the practical implications in planning for war in the early twentieth century.

German Literary Culture at the Zero Hour Oct 05 2021 The 'zero hour' of the title was 1945, when Germany had to confront total devastation, the crimes of Nazism, the onset of the Cold War, & the division of the country. It was a time of intense intellectual debate, here reviewed through the mediums of literature & literary discourse.

Muscovy and Sweden in the Thirty Years' War 1630-1635 Mar 18 2020 This is an English translation of important writings on the Thirty Years' War by the great Soviet historian B. F. Porshnev. Little is known of the Muscovite contribution to the conflict and Paul Dukes - arguably Britain's senior historian of ancien regime Russia - has selected the most valuable areas of Porshnev's unparalleled archival research to fill a crucial gap in the literature of the seventeenth century. In placing this work in the context of Porshnev's larger undertaking, Professor Dukes' substantial introduction assesses Porshnev's critics and evaluates his contribution to our understanding of the Thirty Years' War and of relations between Eastern and Western Europe at the time. A significant reinterpretation of a fascinating period, the book will interest both Russian specialists and those working more generally in seventeenth-century European history.

AfrikanerInnen in Deutschland und schwarze Deutsche Dec 19 2022 This study shows how power was constructed, enacted, and contested by discursive and non-discursive strategies and practices. It emphasizes the local and historic divergence of these processes and illustrates how Germans and Africans were able to produce exclusive power arenas but also engaged in a reciprocal extraversion of the respective power of the other. Stefanie Michels teaches at the University of Cologne, Germany.

Germany Without Bismarck Apr 11 2022 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1967.

The Politics of the Body in Weimar Germany Oct 13 2019 This book analyses how the Weimar Republic put Germany in the forefront of social reform and women's emancipation with wide-ranging maternal welfare programmes and labour protection laws. Its enlightened policy of family planning and liberalised abortion laws offered women a new measure of control over their lives. But the new politics of the body also increased state intervention, the power of the medical profession and the tendency to sacrifice women's rights to national interests whenever the Volk seemed in danger of 'racial decline'.
