With honesty, wit and erudition, the acclaimed author of Pavlov's Trout delves into the philosophical lessons learned from a lifetime of fishing. Despite its title, Fishing Lessons will not show readers how to fish. In fact, you don't even have to like to fish to enjoy and appreciate the latest book from renowned psychologist, fisherman, and essayist Paul Quinnett. Fishing Lessons is a rich mix of anecdotes, observations, essays, short stories, one-liners, and personal revelations from Quinnett's rich life and fishing journals. In his straightforward style, Quinnett rounds out the trilogy that began with Pavlov's Trout and Darwin's Bass, the first books ever written on the psychology of fishing. This time he tackles the philosophy of fishing—a philosophy of enjoying life. Over the course of its pages, Fishing Lessons provides satisfying essays that won't so much teach you about fishing as they will teach you about yourself. There's nothing better than being a kid, spending time in nature and creating new memories with your family and friends on a fishing trip! And now, you can add to the excitement of the outdoors with this unique and fun fishing coloring book and journal!
