Julia Graham and David Kaye, two globally recognized risk management experts with experience in 50 countries, were among the first to recognize the interrelationship of Risk Management and Business Continuity and demonstrate how to integrate them with Corporate Governance enterprise-wide. They focus on all the factors that must be considered when developing a comprehensive Business Continuity Plan, especially for multi-location or multinational companies. Endorsed by The Business Continuity Institute, Institute for Risk Management, and Disaster Recovery Institute International, the book includes:

- Chapter objectives, summaries and bibliographies;
- charts, sample forms, checklists throughout.
- Plentiful case studies, in boxed text, sourced globally in the UK, US, Europe, Australia, Asia, etc.
- Boxed inserts summarizing key concepts.

Glossy of 150 risk management and business continuity terms. • Wide range of challenges, including supply chain disruptions, media and brand attack, product contamination and product recall, bomb threats, chemical and biological threats, etc. • Instructions for designing/executing team exercises with role playing to rehearse scenarios. • Guidance on how to develop a business continuity plan, including a Business Impact Analysis.

Downloadable Instructor Materials are available for college and professional development use, including PowerPoint slides and syllabus for 12-week course with lecture outlines/notes, quizzes, reading assignments, discussion topics, projects "Provides clear guidance, supported with a wide range of memorable and highly relevant case studies, for any risk or business continuity manager to successfully meet the challenges of today and the future." --Steven Mellish, Chairman, The Business Continuity Institute Reeds Marine Insurance is aimed at all those

who have little or no experience of marine or any other form of insurance working within the maritime transport field. Ideal for cargo operators, port managers, ship brokers, and shipping transport managers, it will also be invaluable for students on maritime law, sea transport and shipping courses and for those studying marine insurance as part of a maritime management course. It is designed to take the reader from the basics through to a competent level of understanding on the subject. It includes: - the main principles underlying marine insurance - the 1983, 1995 and 2003 hull clauses fully explained together with war risks insurance - a complete outline of the cover given by P and I clubs, set out in an easy to read format - an in-depth look at cargo insurance and the standard clauses - the principles of General Average - legal precedents.
