Megatrends and How to Survive Them May 21 2020 Behind the headlines, things are happening—remorselessly and inexorably. They will have more impact on the world than the passing news in today's headlines. The new global environment will be very different. Are you prepared? How will you, your family, and your business cope? Today's world is very noisy. How do you filter out what is important? How do you make sense of the future? What do you need to think about? This book explores the world as it could be in 2032—and the implications for you and your organisation. It investigates the twelve key megatrends that are changing in the world. For each one, the book discusses the impact, why it is important, how we got here, what could accelerate or slow this trend, and what individuals and organisations can do to survive and thrive in the new world of 2032. The contributors here are professionals in thinking about the future. They have worked with many high-profile organisations, have held senior line roles in major corporations and understand the needs of both decision makers and ordinary people.

The Development Dimension Aid for Trade Oct 26 2020 One of the most effective ways to realise the potential of trade as a tool for development and poverty reduction is through meaningful market access. That being said, increasing the trade capacity of less advanced developing countries so that they become more dynamic players in the global economy requires a wide range of support. At the 2005 Hong Kong WTO Ministerial Conference, ministers called for the expansion of Aid for Trade to help developing countries benefit from WTO agreements and expand their trade, while recognising that such aid should not substitute for successful market access outcomes in the core areas of the Doha Development Agenda. In effect, the current suspension of talks in Geneva may provide a breathing space to make Aid for Trade fully operational in time for the completion of the negotiations. It is therefore important to keep up the momentum to ensure that Aid for Trade does deliver its promises. *Aid for Trade: Making it Effective* sets out how much aid the members of the OECD Development Assistance Committee (DAC) are already providing towards trade-related activities. It reviews the effectiveness of existing programmes, and argues that reinforcing mutual accountability at the local level, together with a global review mechanism, i.e. applying the Paris Declaration on Aid Effectiveness, would enhance the impact of Aid for Trade. In particular, strengthening country ownership and management for results are essential to ensure that Aid for Trade delivers larger benefits from the multilateral trading system to the least developed and developing countries, and enables them to develop effectively.

How to Be Present in an Absent World Aug 24 2020 Experience the fullness of life that Jesus promises by learning how to engage with the present--even in the increasing busyness of work and family life. Do you ever wonder how long can you keep: grinding out eighty-hour work weeks? putting your marriage on the backburner? treating your employees like cogs in a machine? pushing your life aside before you realize your time is all up? At the heart of this collaborative project is the belief that the pain we experience is the result of absence--living disconnected from our authentic selves and lacking deep, meaningful relationships with others and with God. Daniel Montgomery, the founding pastor of Sojourn Community Church; Kenny Silva, a PhD candidate at Trinity International University; and Eboni Webb, who holds a doctorate of Clinical Psychology, pooled their efforts and expertise to focus on the problem of modern absence and the pain it causes us and those around us. This book is a guide for how to cultivate a self-awareness that empowers you to take ownership and engage in every area of influence. It's arranged into five sections, each focusing on one of the major areas of our lives where many of us struggle with absence: Time Place Body Others Story How to Be Present in an Absent World provides biblical, practical ways to handle the daily pressures of life without denying or escaping the present. Its goal is to help you rediscover what it means to show up for your own life. With interludes that offer a deep dive into the neurobiology of presence as well as principles and exercises that Dr. Webb employs in her clinical practice, Montgomery and his coauthors will equip you with the kind of self-understanding that allows you to realize God's design for human flourishing--whether in your church, in your job, or in your family.

You Already Know How To Be Great Jun 14 2022 According to Alan Fine, every one of us has the capacity for greatness. So what is it that's stopping us from reaching our true potential? The answer: too much information. Most people who want to get better at hitting golf shots, negotiating with clients, delivering presentations, or any field of endeavour - seek out new information. They read a book, take a class, employ an expert tutor. But as Alan Fine has learned from many years of coaching athletes and businesspeople, this 'outside-in' approach often doesn't produce the results people want. More information becomes a distraction rather than a solution, and high performance remains elusive. Fortunately, there is a better way. Fine has developed and honed a unique 'inside-out' approach to performance improvement which is not about gaining new knowledge, but instead about using the knowledge you already have. Through a simple four-step process, Fine shows how to remove the obstacles that get in the way of applying your existing skills to unlock your natural potential. No matter who you are or what you do, this book will help you get better.
