This volume contains the papers that will be presented at 'EMC '91' -the European Metals Conference-to be held in Brussels, Belgium, from 15 to 20 September 1991, and organized by Benelux Metallurgie, GDMB (Gesellschaft Deutscher Metallhütten und Bergleute) and IMM (the Institution of Mining and Metallurgy). 'EMC '91' is the first of an intended major series organized at the European level with the aim of bringing together all those who are involved

with the extraction and processing of non-ferrous metals-European metallurgists and their international colleagues-to provide them with the opportunity to exchange views on the state and evolution of their industry. The programme covers all the different aspects of the metallurgy of non-ferrous metals from mining to fabricated products. Particular attention is being paid to the European non-ferrous industry with respect to changes in demand, the technology used, pressures on the environment and the competitive position of manufacturers. The contributions of the plenary lecturers (copies of which will appear in the IMM journal Minerals Industry International in 1991-92) and the many authors are gratefully acknowledged. Thanks are also due to the referees of the papers, the sponsors, the companies that have allowed registrants to visit their operations, the chairmen of the technical sessions and the staffs of the organizing bodies for their efficient administrative work. Jean Vereecken Chairman, Organizing Committee July 1991 v Contents Foreword. v .

Includes list of members. Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original,

and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates. The poem that Richard Maidstone wrote on the metropolitan crisis of 1392 reports information about the royal entry that concluded the crisis in greater detail than any other source. The poem is not primarily a report, however; like Maidstone's other writings, it is above all an ideologically driven literary intervention, produced at a particular moment, addressing a particular political circumstance. . . .

Maidstone's Concordia shows Anglo-Latin poetry, on a specific occasion, in the process of making itself a public poetry a broadly appealing, flexible, legible medium for addressing public issues. This influential and widely acclaimed work, published in two volumes between 1797 and 1804, includes hundreds of beautiful wood engravings. The Book Comprehensively Covers The Syllabus Of B.Sc. Biotechnology-2 And Clearly Explains The Basic Concepts In Cell Biology, Genetics And Microbiology. A Molecular Approach To The Study Of Cells Is Followed Throughout The Book. The Text Is Illustrated By A Large Number Of Clearly Drawn Diagrams For An Easier Understanding Of The Subject. Each Chapter Closes With A Summary And A Set Of Review Questions.
